## Enabling Chromium to sync with Google Account

Article Number: 116 | Rating: Unrated | Last Updated: Sun, Aug 7, 2022 at 8:30 AM

You'll need to set three environment variables:

**On Windows**: Launch cmd.exe and enter the following commands:

setx GOOGLE_API_KEY ""
setx GOOGLE_DEFAULT_CLIENT_ID 77185425430.apps.googleusercontent.com
setx GOOGLE_DEFAULT_CLIENT_SECRET OTJgUOQcT7lO7GsGZq2G4IIT

**On Mac OS X** / **Linux**: Plop these in your ~/.profile file:

export GOOGLE_API_KEY=""
export GOOGLE_DEFAULT_CLIENT_ID="77185425430.apps.googleusercontent.com"
export GOOGLE_DEFAULT_CLIENT_SECRET="OTJgUOQcT7lO7GsGZq2G4IIT"
Now launch Chromium:

**On Windows**: Launch Chromium normally.

**On Mac OS X**:

/Applications/Chromium.app/Contents/MacOS/Chromium
