Installing PHP Versions in Webmin

Article Number: 61 | Rating: Unrated | Last Updated: Thu, Feb 4, 2021 at 12:57 AM

To make things easier, later on, we will want to add the location of the configuration files to Webmin. This can be done from within the Webmin interface.

1. Log into Webmin
2. Navigate to **Others** >> **PHP Configuration**
3. Add the PHP configuration file location
4. Click **Save**
